- **Database:** MongoDB, Firebase, MySQL, SQLite
- **Cloud/DevOps:** Google Cloud Platform, GitHub Actions, Netlify, Firebase Hosting, Cashfree Payments
- **Other Tools:** Blender, Cursor, VS Code, Android Studio, Canva, Figma, Framer Motion and Game Engine

Education

B.E. – Computer Science and Engineering(Cyber Security)

2023 – 2027

Surya Group of Institutions, Anna University

CGPA: 8.5 / 10

Relevant Courses: Data Structures & Algorithms, Artificial Intelligence, Machine Learning, Cyber-security, Web Development, Operating Systems, Database Management Systems, Natural Language Processing

Work Experience

StarkCloudie – Founder

Jan 2023 – Present

Tech company building AI SaaS products, educational platforms, and cyber tools.

- Spearheaded the creation of 10+ live AI-enabled platforms including **Cliphunt.in**, **eBookCart**, and **Last Minute Preparation**. - Built scalable APIs and microservices with Node.js and MongoDB, deployed via Netlify and Firebase. - Developed full-stack systems with integrated payment workflows using **Cashfree**.

Cosmo Tec – Co-Founder

Dec 2023 – Present

- Launched a digital services platform to deliver booking websites, small business portfolios, and analytics dashboards. - Contributed to UI/UX design, frontend architecture, and client relations.

Zidio – Web Developer Intern

May 2025 – Jun 2025

- Developed custom components and interactive UIs using React and integrated APIs for content management. - Ensured cross-browser compatibility and responsive mobile-first designs.

TATA Forage – IAM Intern

Jan 2025 – Feb 2025

- Gained practical experience in authentication protocols and Identity Access Management infrastructure. - Worked on documentation and technical overviews related to access control and security layers.

Top Projects

eBookCart – Digital Store for eBooks

Node.js, HTML, CSS, JS and Cashfree API

An e-commerce website for selling tech books with auto-unlock features on payment. Integrated secure payment gateway, backend logic, and download delivery system. Enabled purchase logs and real-time success status.

ChatMate – Real-Time Chat Application

Firebase, JavaScript, MongoDB

Developed a secure chat platform with live presence status, authentication, and notification. Enabled dynamic room creation and user-to-user messaging.

Hacker0x1 – Cybersecurity Learning Platform

HTML, CSS, TS, Firebase

Created ethical hacking simulator with phishing demos, walkthrough labs, and beginner to advanced cyber missions. Added gamification and interactive user scoring.

Certifications

- Certified **ChatGPT Expert** – Prompt Engineering and Automation
- **Machine Learning Specialization** – Coursera by Andrew Ng
- **Google Cloud Career Readiness Certificate**
- **Ethical Hacking Essentials** – EC-Council
- **NISP Innovation Ambassador** – MHRD, Government of India

Portfolio Platforms

- **StarkCloudie.netlify.app**: AI tools, chatbot builders, applications, and automation dashboards
- **rajesh2005.netlify.app**: Portfolio showcasing projects, certifications, and skills
- **CosmoTec.netlify.app**: IT services and smart business website builder
